The cost of your eggs

On average, a hen eats around 200 grams of pellets a day, so 3 hens would eat 600 grams a day, meaning that a 20kg sack of pellets would last them one month. Over 52 weeks that works out about £4.00 a week in feed to keep 3 hens, in return for 1 ½ dozen eggs.

A note about point of lay hens (POL)

Hens reach point of lay between the ages of 16 and 22 weeks. Some take far longer to start laying and hens are affected by many factors such as the weather, being moved etc. Remember, the old saying ***"all the eggs will eventually come out"*** ...

Hybrid hens, lay brown or white eggs (£24.00 each)

(Pied, Cou Cou, Black Rock, Barred Rock, Rhode Rock, Sussex Ranger, Silver Ranger, White Leghorn, Maran Cuivre, Calder Ranger, Speckeldy, Corals, Blues etc).

Not all colours are available on each batch.

Pastel Laying Hens, lay pastel-coloured eggs (£29.00 each)

Important: The gene that makes the egg shell blue is not guaranteed to be inherited so egg colour is likely but is not 100%.

WE ARE NORMALLY AVAILABLE FOR HENS 7 DAYS PER WEEK,

EVEN BANK HOLIDAYS!

We try to offer a range of coloured hybrid hens, because most people who want to keep a few hens prefer to have differently coloured hens. Hybrids have been bred to lay over 300+ eggs a year – all year round!

Sexed Female Chicks (~~Sold out~~)

Day-old sexed chicks (all females), which are vaccinated and will grow into the same adult hybrid laying hens that we sell. But you get the pleasure of watching them grow, knowing they will be girls. We have different colours available (*please see our separate leaflet on raising chicks – it is quite easy!*).

Pekin Ducklings (~~Sold out~~) Sexed

Pekin ducklings available. A dual-purpose breed ideal for the table at 10/11 weeks or females lay around 200 massive eggs a year.

Fertile Hatching Eggs

Available late February to end October
(See our Hatching Eggs page)
